# sustainable events

We are committed to maintaining, improving and promoting exceptional sustainability standards throughout all aspects of our business.

Every business decision we make, from strategic planning to day-to-day operations, demonstrates our dedication to balancing our company's economic vitality with a firm commitment to the health of our planet and the well-being of our communities.

- We will continue to replace the fleet with electric alternatives vehicles.
- Tacking & Routing Systems: using tracking and routing technology, we can minimise fuel and power consumption in our vans.
- We use LED lights throughout our premises, with timers or sensors to reduce consumption.
- Our premises are powered by 100% renewable electricity and the UK's only 100% green gas, produced through anaerobic digestion.
- We reduced 15% the distance from our suppliers over the past four years.
